Description

Conservation Framed with AR70 Glass.

World skyline wall art print based on Kristjana's work for the Rio Olympics in 2016. This very architectural skyline comes to life with iconic buildings from the Olympic cities: Athens, Barcelona, Atlanta, Beijing, Sydney and Rio, and looking forward to Tokyo 2020. Singapore also gets to sneak in, it is where Kristjana would like to see the Olympics held one day.

Growing up in Iceland, where there are very few tall buildings, the impact that big city skyline have on Kristjana was massive. She is truly inspired by the major cities of the world, and working on maps and city themed artwork like skylines, is a passion of hers.
