Description

The personification of our dreams often drifts between chaos and calm in a fraction of time. This piece of wooden artwork explores an erratic, unpredictable journey through a dream depicted through stark diminishing geometrical shapes and patterns. The 3D relief sculpture is made from 7 layers of birch plywood that are painted in a single colour to create an eye-catching monochromatic contrast.

Materials: Birch.

The work is set in a White Ayous tray frame and on the reverse is a fixing rail.
