These pieces are from acclaimed artist Jana Nicole's Fabulous Fungi series, a vibrant celebration of the beauty, complexity, and ancient intelligence of fungi. Through this work, Nicole invites viewers to appreciate these extraordinary organisms, recognise their healing potential, and explore the personal transformation they inspire.

Inspired by Victorian botanical illustration, Nicole hand-draws and paints each intricate element of her collages. Illuminating flora, fauna, and funga alike, she carefully selects each glowing form to showcase their natural wonder and restorative power. This original hand-cut mixed media collage is mounted on dibond and presented in a deep-set box frame with museum glass.
