Description

The Art Maverick creates their Metallic Matt artworks by transforming mirror plates into luminous masterpieces. Each image is surface screen-printed using seven colours and a white halftone screen, forming translucent pockets within the design. The edges of the mirror plate are meticulously gilded with gold or copper leaf, producing a glowing, framed effect. Finally, the surface is coated with a soft matt sealer, giving the piece a smooth, velvety finish. The result is a captivating fusion of metallic highlights, warm gilded edges, and a serene matt texture, radiating both elegance and depth.
