Description

Spraycan: Series One features four low edition sculptures: 'Golden', 'Turning Point', 'Small Sanctuary' and 'Lotus'

The iconic spraycan is 'super-sized' into a statement piece combining his traditional imagery with cutting edge techniques and materials. The cans, only 10 of each worldwide, are meticulously created and completed with his trademark Hanko stamps, Metal Leaf highlights plus a 24 Carat Gold Leaf 'Halo'. Check out subtle details like the GTE logo on the spray can cap. The sculptures are held within a bespoke acrylic presentation case with a - concept to product designed - lighting mechanism within the upper plinth. Activated via a brass touch sensor in the plinth or remote control, the LED light transforms the sculpture going through multiple colour configurations. The upper plinth is removable to enable it to be recharged via an integrated USB-C socket.

The sculptures are complemented by four limited edition hand-embellished prints: 'Golden', 'Alchemy', 'Small Sanctuary' and 'Lotus'. The prints are playful fusions of Evans's signature imagery, transforming classic motifs into spray can silhouettes adorned with his beloved butterflies and hummingbirds. Each element - the cans, the birds, the butterflies - is finished with multiple layers of premium gloss varnish, creating a striking contrast against the matte backgrounds and highlighted with metal leaf discs and Hanko stamps. Whether displayed individually or as a set of two, three, or all four, they make a bold statement.
